Re: Anti-"Special Rights for Gays" Statewide Initiative Drive

Dear Pastor,

"Gay Rights" is an issue in Colorado now that can and will affect all Colorado churches unless citizens act. Consider the following:

- Here in Colorado, a proposed "Ethnic Harassment Bill" (which Colorado for Family Values helped defeat) would have made it a felony crime for ministers of the Gospel to speak out against the sin of homosexuality.

- In 1989, a mother sent her 9-year-old son to a Laguna Beach, California, public park restroom. Moments later, the boy ran out, screaming in terror. Three naked homosexual men were engaged in sex in the restroom. When a group of outraged citizens appeared to protest the gays' behavior before City Council, their complaint was dismissed. This was "protected activity," City Council said, under Laguna Beach's "human rights" ordinance.

- A Minneapolis, Minnesota, church was recently fined $15,000 and assessed $20,000 in damages, payable to homosexuals who complained, under a "gay rights" ordinance, that the church denied their club the "right" to meet in church facilities.

- In Madison, Wisconsin, two young heterosexual women advertising for an apartment roommate refused to consider an avowed lesbian's application. Under a "gay rights" ordinance, they were fined $1,500 apiece. Forced to attend "sensitivity" classes in which they were exposed by lesbian "teachers" to graphic depictions of lesbian behavior. Forced to write letters of apology. And forbidden to ask future applicants to share their living space about their "sexual orientations."

- The Attorney General of Hawaii has stated that, under a State "gay rights" law, homosexuals must be considered for almost all positions in church employment short of the pastorate itself.
